# Creating Projects in RStudio
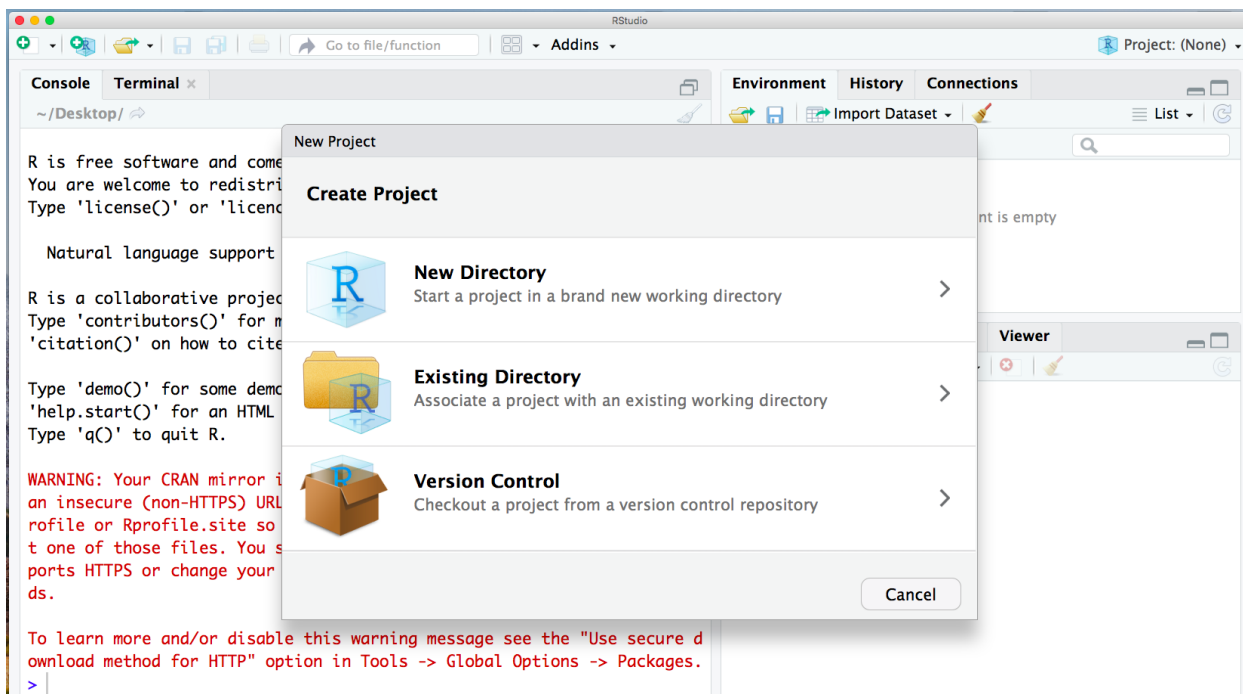

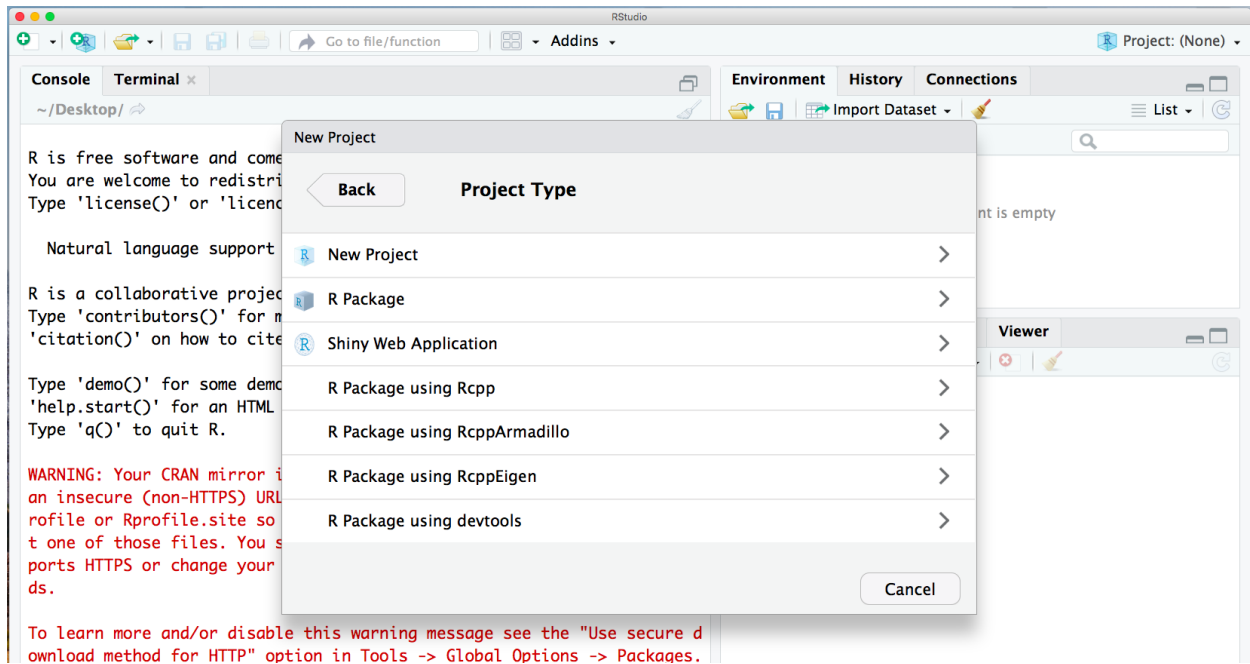

Jinko Graham

2018-08-02

1. Click "Project (None)" in the upper-right of RStudio and choose "New Project":

2. Select "New Directory" or "Existing Directory" as appropriate (I selected "New Directory" for this demo)

3. For the "Project Type" choose "New Project"

4. Choose a directory name and click "Create Project"
